

Dear Prospective Students.

I thought it was worthwhile posting some frequently asked questions when applying to Chapelton Academy and if you have already applied, what the next steps will be. Also, watch out for a FAQs video explaining the answers to the questions below.

Take care and best wishes

Dayle Coe (Headteacher)

Questions	Answers
What grades do I need to be accepted?	These are bespoke for each subject, but basically 5s in the subject you are studying at GCSE or similar if a new subject at A level. Maths is an exception, for this its grade 6 and Further Maths a grade 8.
Is the deadline for applications 31st Jan when Sheffield Progress closes?	No not at all, we accept applications through our website up to enrolment day. However, the longer you leave it, the more chance there is a course will be full.
What if I change my mind with courses I pick?	That's no problem at all! If it's before you start just email us on jhumphreys@chapeltonacademy.com . If it's after you start that's also fine all the way up to October half term.
What will happen if I don't get the grades?	Don't panic! It may well be that we can offer you an alternative course or in the case of Maths and English Language, you can resit them.
Where do look I for information on how good Chapelton Academy is?	The government and DFE website with the link below, will tell you all about our last OFSTED inspection and our last official results in 2019. We were above average nationally on all counts! https://www.compare-school-performance.service.gov.uk/school/140940/chapelton-academy/16-to-18/advanced-level-qualifications?accordionstate=0
I've notice that Engineering and Health & Social Level 3 Extended diploma qualifications are now available. What does this mean?	These two subjects are new. You will need English grade 4 and Maths 5 with science grade 5 to study these. In Engineering a pass in L2 Engineering helps too, but it is not essential. As they are extended diplomas, the full course takes up the equivalent of 3 A level courses. If you require more info please visit our website under curriculum or contact Jess Humphreys above.
What other courses do you run?	Please visit the website for more details. There are also staff videos posted on there, telling you more about the subjects and what careers they lead to.
I've received a letter with an offer. What do I do next?	Please accept within 48 hrs so we know you are interested in joining us and we can keep in touch with upcoming events.
